

NRL and Radio Amateurs

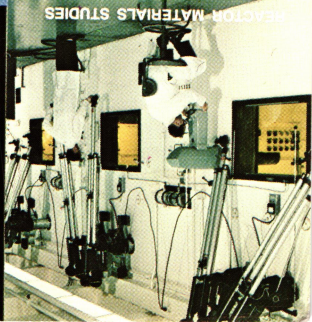

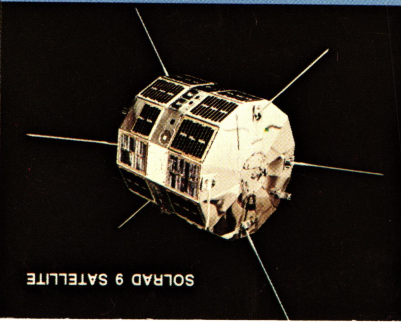

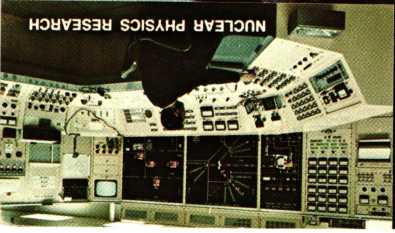

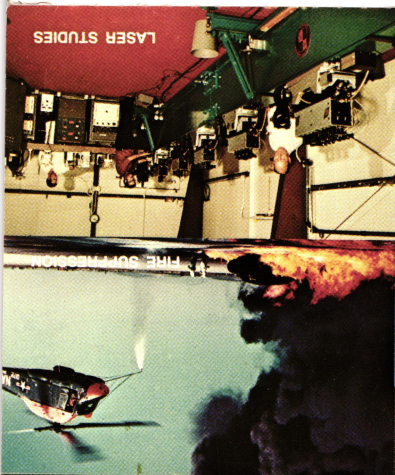

"The Naval Research Laboratory is greatly indebted to many radio amateurs world-wide for their assistance in numerous ways to the contributions made by the Laboratory in electronic radio and related fields over the past fifty years. It therefore seems most fitting to honor the radio amateurs world-wide on the 50th anniversary of the Naval Research Laboratory by recognition of those amateurs who make contact with the NRL amateurs during this anniversary year."

Captain Earle Sapp, USN, Director, NRL

NRL Commemorative Certificate

Thank you for the contact. Please QSL direct to the station you worked as indicated on this side of the card. To qualify for an Anniversary Certificate you must work five of the NRL Amateurs or make five contacts on various bands or by various modes of transmission. To request a Certificate send the QSL serial numbers on a card to W3BLC, Naval Research Laboratory, Code 7900, Washington, D.C. 20390.
